Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1- 2 are rejected under 35 U.S.C. 102(b) as being anticipated by

Bushinsky (3861248).

- a. Bushinsky discloses a tool having a stiff wire probe (14,12,20) with a point (22), two bends (at 16 which is the first bend is 30 degrees and at 20) creating three segments , and a handle (10).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over

Bushinsky (3861248).

- b. Bushinsky is discussed above.
- c. Bushinsky discloses the claimed invention except for bends which are approximately 30 degrees. It would have been obvious to one having ordinary

Art Unit: 3723

skill in the art at the time the invention was made to have made the bends to be approximately 30 degrees, since it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art. *In re Aller*, 105 USPQ 233.

5. Claims 5-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bushinsky (3861248) in view of Christensen (20020134971a1).

d. Bushinsky is discussed above.

e. Bushinsky does not teach the use of tool for removing carpet.

f. Christensen discloses a tool for to remove carpet (par.53) which is used to remove carpet and other workpieces that have to be lifted up.

g. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have modified the Bushinsky device by providing teaching of using the tool as a carpet remove as taught by Christensen which is used to remove carpet and other workpieces that have to be lifted up.

Allowable Subject Matter

6. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Golczynski, Wurdack, Provost, and Haidle disclose an invention.
